

Royal Swedish Navy Group Transportation Boat

Fast supply vessel

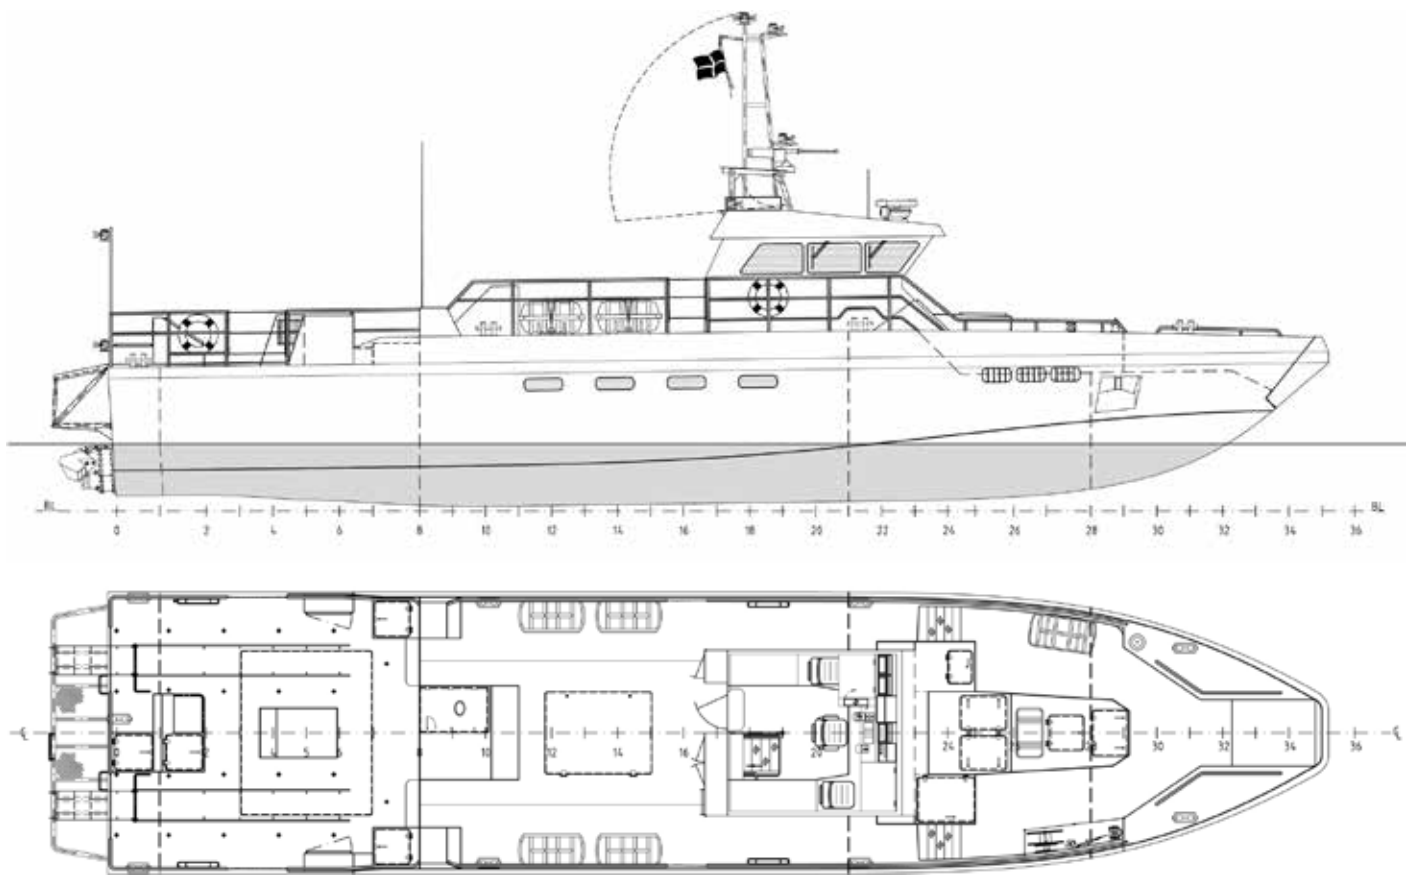

GENERAL

High speed vessel for UAE Navy, built by Swede Ship Marine in cooperation with Abu Dhabi Shipbuilding. The FSV is a multipurpose vessel with shallow draught and excellent sea-going qualities.

It's design with large areas on open deck makes it possible to transport containers plus other equipment. The bow visor together with the ramp makes loading and unloading easy.

MAIN FIGURES

Speed	+32 Knots
Passengers	18

MAIN PARTICULARS

Length	26.0 m	Fuel oil	2 x 7 500 l
Beam mld	5.40 m	Fresh water	2 x 2 000 l
Breadth mld	4.60 m	Construction material	AlMg 4,5 Mn
Depth mld	2.60 m	Main engines	2 x MTU (2 x 1 035 kW) 16 V 2 000 M70
Draught		Reduction gears	2 x ZF 2 550
- (disp 53 tonnes)	1.05 m	Water jets	2 x Rolls Royce FF550
- (disp 73 tonnes)	1.27 m	Auxiliary Machinery	G&M POWER PLANT
- max	+ 32 knots	Engine	Perkins 1004 TGM
- loaded	+ 22 knots	Generator (in acoustic enclosure)	Newage 62 kVA
Crew	3	Communication	VHF Intercom
Passengers	18
